

INSTRUCTIONS TO AUTHORS

Aims and Scope. *Quest's* primary purpose is to publish manuscripts that address issues and concerns relevant and meaningful to kinesiology and physical education in higher education. The journal does not publish original research reports but welcomes manuscripts that are based on, complement, or review empirical research related to our profession. Both theoretical and practice-based articles are considered. *Quest* serves a broad readership that includes academicians, teachers, and administrators by providing a public forum for scholarly and creative thought about the profession.

Submission of Manuscripts. Manuscripts should not ordinarily exceed 25 pages in length. All articles must be preceded by an abstract of no more than 150 words. Reference citations in the text must match those in the reference list and must be accurate as to dates of publication and spelling of author names. Footnotes must be kept to a minimum, both in number and length; they should not exceed 5 or 6 lines each. Authors also are encouraged to refer to past issues of the journal for specific examples of the style to be used for citations and references, as well as for various types of articles. Manuscripts must be carefully proofread before submission. Authors of manuscripts accepted for publication must transfer copyright to the National Association for Kinesiology in Higher Education (NAKHE).

Submitted manuscripts should be original works not previously published or simultaneously submitted to another journal. A blind review process is used to evaluate manuscripts; all manuscripts are read by two members of the *Quest* Editorial Board. The review process typically takes from 4 to 6 weeks. There are no page charges to contributors. Articles are to be submitted electronically via ScholarOne Manuscripts at: <http://mc.manuscriptcentral.com/quest>. ScholarOne Manuscripts allows for rapid submission of original and revised manuscripts, as well as facilitating the review process and internal communication between authors, editors and reviewers via a web-based platform. For ScholarOne Manuscripts technical support you may contact them via e-mail or phone support via <http://scholarone.com/services/support/>.
